Corporate Acquisition Leads to a Greener Cleaner

Colorado Springs, CO—Diamond Wire Technology, LLC has acquired J. Crawford Enterprises, Inc. J. Crawford Enterprises has found a unique niche by producing environmentally safe industrial cleaning agents.

“Diamond Wire Technology is committed to the demands and goals of the solar industry,” says DWT CEO, John Brennan. With the purchase, DWT gains ownership of a revolutionary, bio-degradable cutting fluid designed specifically for use when cutting silicon with diamond wire.

DWT’s new cutting fluid is formulated to better suspend silicon particles, improving wafer cut quality, enhancing wire life and the impact on the environment.

J. Crawford Enterprises, based in California, has been producing cleaning, finishing and sanitation products for silicon and wine industries since 1991.

About Diamond Wire Technology:

Diamond Wire Technology is the originator and market leader in diamond wire cutting. The company is the oldest manufacturer of diamond wire and diamond wire saws, with over 40 years experience. In addition to making diamond wire from 150 micron to 500 micron in diameter, Diamond Wire Technology maintains a line of diamond wire saws designed to enhance performance and lower cost.
