

FOR IMMEDIATE RELEASE

Diamond Wire Technology Appoints New Contract Manager

Colorado Springs, CO – August 7, 2008 – Diamond Wire Technology, the oldest manufacturer of diamond wire and diamond wire saws, has appointed Kim Kasprzycki as its Contract Manager.

Kasprzycki has been managing contracts for six years and has a background in both commercial and US Government contract management. She has had a variety of opportunities to work with different industries including manufacturing, satellite communication, research and development, civil engineering, and health care. Additionally, she has worked to develop and institute contract management and its processes with start-up programs and companies, as well as managed cradle-to-grave contracting in well-established companies. Kasprzycki has lived and worked in both Uzbekistan and India managing contracts and procurement for large programs based there and is looking forward to working in Diamond Wire Technology's international environment.

About Diamond Wire Technology:

Diamond Wire Technology is the originator and market leader in diamond wire cutting, with over 40 years experience. In addition to making diamond wire from 150 micron to 500 micron in diameter, Diamond Wire Technology maintains a line of diamond wire saws designed to enhance performance and lower cost.
